Movie: Yes Boss! Size: 1.07 GB Language: English Video: MP4 Resolution: 640x360 Working: Windows XP/Vista/7/8/10
File:.avi Web: Yeah Boss! Movie Review Category: Comedy, Family, Performer Unknown by K-POP Star, our resident Korean expert, ChosunLion.com On July 15th some 20 people gathered at the Forte Business Cinema to watch the latest Korean comedy, "Yes, Boss!" Directed by Lee Eung-ki, the film centers around a group of college students who are going through one of the worst, most upsetting periods in their life. Every Saturday is "Mondays." Well, not this Saturday, but every Friday. You see, you've been training really hard for a week, and since your boss has insisted that you put in extra hours all this week, you expect this Saturday to be a no-show. All of your friends have been hearing "no" ever since your boss made you promise, but this Saturday, your boss changes his mind. The day has finally arrived, and you're scheduled to be on duty that day. You get up early, put in a little overtime, and then head over to the hot new cafe in the area. To your surprise, there's just a few people there. You consider giving up your Saturday, but after the cafe staff says "Welcome!" so sincerely, your attitude changes a little. Instead of being so upset about your boss leaving you no choice, you decide to stay and see the rest of the day through. As the day goes on, and you continue to find ways to stay busy, things start to get even more complicated for you. The cafe staff doesn't quite have what it takes to show a welcoming attitude, so you get a few shady customers who take advantage of how good-natured they are. Another problem is that all of the cute girls who usually work at the cafe are in a big fight over a strange man. One of the girls is going crazy, arguing with the guy. It's finally time for you to step in. Is this a perfect movie? No. Is it a terrible movie? No. Is it simply okay
