Enter the password: Rest of the world - Johnnycake - To preview the invitation, please click [here](#) In this episode of The Adlandia Podcast, I chat with the guys at GameSpy about the challenges and rewards of gaming as a career and the future of gaming. The panel is moderated by yours truly. They also talk about the quality of the gaming industry and how they work, how they make money, and what they're up to now. In this episode of The Adlandia Podcast, I talk with John Bennett from the UK Magazine & Website, We Are the Mods. We talk about the rise of hipsterism, the evolution of YouTube, and the future of video game journalism. In this episode of The Adlandia Podcast, I talk with Dr. Jules Prosser of the University of Central Florida, about his research on the psychological processes of pixellation and its relationship to game design. In this episode of The Adlandia Podcast, I chat with Dr. Nevin Liberman of U.C. Berkeley about his work on gaming behavior and the relationship of play to the development of prosocial and psychopathic behaviors. In this episode of The Adlandia Podcast, I talk with Gabriel Zichermann about the relationship of game design to economic systems. We also talk about some of the economic implications of gaming and we reveal our top picks for the best indie games of 2013. In this episode of The Adlandia Podcast, I chat with Dan Coyle about how games are evolving with augmented reality and mobile technology. We also talk about the future of artificial intelligence, and how to foster creativity in games. In this episode of The Adlandia Podcast, I talk with Michael Chen about the evolution of games, the future of game design, and his work in game psychology. We also get into how the media covers games and its effect on the industry and gaming culture. In this episode of The Adlandia Podcast, I chat with Dr. Jules Prosser of the University of Central Florida about his research on 2d92ce491b
