[Download]

Actually the new online version doesnt support signature files, so while uploading I got the next error There are not files for some parts. Try anyway, and if you still get an error, please retry and send me more information about the missing files. error message: There are not files for some parts. Try anyway, and if you still get an error, please retry and send me more information about the missing files. you can find the file upload pop up that shows the sig icon after you upload in the file browser window and then in the upper right hand corner of the web page if you hover over the image icon, you will see the "Properties" on that icon, it should have a "Web server location" there, and the "URL" you can find the file upload pop up that shows the sig icon after you upload in the file browser window and then in the upper right hand corner of the web page if you hover over the image icon, you will see the "Properties" on that icon, it should have a "Web server location" there, and the "URL" There are not files for some parts.
