ToonIt! Photo is a painting software, available for the PC, Mac, and iPad. It is intended for both beginners and professional users. It can also be used as a way to make your photos look more like a cartoon than a traditional photo, all without Photoshop or other costly software. With the free trial version and commercial pro version, this software comes in a wide range of features. ToonIt! Photo has been published by the French company Cubiste, as a drawing app for all platforms. History On October 3, 2012, the French company Cubiste launched the ToonIt! Photo app, a painting software that uses the Toonamation® technology developed by Toonz. This software is available on all the following platforms: Windows, Mac, and iPad. Features ToonIt! Photo allows users to take a photo and apply it to a cartoon image, with the help of colors and light. If users have already created their cartoon with Toonamation, ToonIt! Photo will automatically apply their cartoon. Some of the features include: Touch up Adjust your picture as you would a painting Artistic adjustments Backgrounds and effects Drawing Cartoons and cartoons Shapes Borders Depth of effect Artistic brushes and paintbrushes Oil painting tools Pencils, pencils, pens, and other tools Content Users can use many art resources in ToonIt! Photo. These art resources include: Cartoons Cartoon brushes and Art brushes Effects Depth of effects Characteristic There are a lot of characteristics in ToonIt! Photo. Multiple view with a variety of options to fit the canvas size Large variety of color choice Zoom in and out Artistic tools Density of color choice Brushes Pencils Pens See also Cartooning Cartoon and graphic novel software Toonavision References External links ToonIt!
