STRRATUS Crack+ Product Key [Mac/Win]

"STRRATUS" is the most dynamic and powerfull jukebox audio player (M3U/PLS) The audio player now supports more than 300 audio formats and 10 different types of equalizer. You can now jump between the song titles, jump back/forth time using a scrollbar at the bottom of the list. After you make a selection using mouse click or keyboard, the new standard "replay" button will appear (next) in order to start playing the song title you selected. You can also use keyboard to control (rewind, play, pause, forward..) the music at any moment. There are also Drag and Drop feature to save and load the M3U playlist (standard) and PLS, from the WINDOWS. The application is compatible with Windows Server 2000/2003/2008 R2. Why don't you try it? Your feedback would be greatly appreciated. A note from the developer: "STRRATUS" is also compatible with the ID3 tag in Winamp 2 Plugins. You can download the latest version from the Menu "STRRATUS" -> "Help" -> "Update Info" Please use the file format "Freeware V2.0" or higher, so that the plugins can work well. Also, please post any problems you encounter with the application in the email to the following address : mazaveeran@gmail.com Notes from the developer: Please use the latest version. Please report bugs to mazaveeran@gmail.com This software uses the Windows system dialogs to open the search window, from where you can use the "Search" function This is to save on the system resources so it can run faster on lower end PCs. This site does not store any files on its server. We only index and link to content provided by other sites.
