MS Office 2007 applications are installed and activated on my PC. But now I have restarted my computer. So, I lost my Ms Office 2007 applications. How can I download and install this Ms office.? At the same time, my computer cannot open the Word application. How can I fix this issue? What should I do? 1. I download Microsoft Office 2007 from the Internet. I can download and install Office on my PC. 2. I can open the Word application. My PC is working fine again. 3. I restart my PC again. I may lose some Office applications again. 4. I restart my computer again. My PC is working again. 5. I restart my PC again.
