## Alert Thingy Crack With Full Keygen Download

Alert Thingy is a new version of the popular alert messages on your desktop. Features: - Version 1.0 is now available for Adobe AIR - New Notifications view is available - New icon for the application - Fixes: - Displayed notifications are no longer tied to your account - Notifications are now displayed in a scrollable list - It is no longer possible to show more than a few notifications at once Alert Thingy 1.1 is now released! - New "User set" option. - New option in the preferences to choose if the system notification should be shown when the application is minimized - Notifications can be sent to friendfeed - Notifications can be posted to twitter - More icon sets are available. - Fixes: - Alert Thingy is now able to close down gracefully. - Fixed a bug that could cause an application crash - The app name is now displayed correctly. NOTE: Alert Thingy will automatically be uninstalled in the next AIR upgrade of the Adobe AIR runtime if you have more than one version of Alert Thingy installed. Please note: Alert Thingy is not actually an email, SMS or twitter client. It does not send or receive these messages. It displays these messages as notifications in a screen, similar to how desktop alert messages work. Alert Thingy is a purely desktop application. If you are looking for these features, then please consider using one of the many other desktop email, SMS and twitter clients out there. IMPORTANT: Alert Thingy requires Adobe AIR version 2.0.0 or higher. You can download Adobe AIR from [www.adobe.com](http://www.adobe.com) Alert Thingy 1.1 is now released! Alert Thingy is a new version of the popular alert messages on
