

Welcome to Nutrition! What is Nutrition? Nutrition is an invaluable tool to assist you in maintaining optimal health. The application provides easy access to the best foods and nutrients. It helps to prevent and treat disease and supports your immune system. How to use Nutrition? The application is quite easy to use: To create a new profile, click the plus sign to the left of the window. Select your ideal health profile: it can be an athlete, nursing mother, pregnant woman, preschooler, senior citizen, etc. It can even have multiple profiles in one setup. Your weight, height and activity level are automatically calculated. To view nutrition content of foods, click on the plus sign to the right of the window. You'll see a list of foods and their nutritional content. You can sort the information by different categories: carbohydrates, fat, protein and minerals. To create a new list, click on the plus sign to the right of the window. Use the search function to find the food you want to know more about. When a recipe is created, it will be presented on the screen. To add a new recipe, click the plus sign to the right of the window. Enter the ingredients and cooking instructions. You can calculate the nutritional content by using the corresponding button on the screen. To calculate the nutritional content of a recipe, click the plus sign to the right of the window. Enter the ingredients and cooking instructions. You can add a recipe to your profile by clicking the plus sign to the right of the window. It will be added to your recipe list. Note: for some food items, you can only add recipes to a profile. To see the list of available recipes, click on the plus sign to the right of the window. How can you calculate the nutritional content? To view the nutritional content of foods, click on the plus sign to the right of the window. The nutritional data is shown on the screen. You can calculate the nutritional content of foods by using the corresponding button on the screen. To calculate the nutritional content of a recipe, click the plus sign to the right of the window. Enter the ingredients and cooking instructions. You can use the calculation function by clicking on the corresponding button on the screen. To enter the nutritional content of a recipe, click the plus sign to the right of the window. Enter the ingredients and cooking instructions. Enter the amount of protein, carbohydrates
