
Autodesk Maya Crack 2018.4 _BEST_

November 29, 2018 - I'm guessing it's left over from my previous 2018.4 install and there must be something incompatible with the 2018 version. There . Net 4.7.2 was I think the last time I updated. I don't understand why it always loads my previous install. I'd rather have it in an update because it gives me the ability to update only what I want (and I have to reinstall everything from the previous install). In any case, how can I get rid of the old installation? I need to know which versions installed in 2018 were not compatible with 2018
