## What's New In?

WebTide HTML editor is the easiest way to write and edit HTML pages and web applications. Not only a html editor, WebTide is also a code navigation, multilanguage and a formatter, therefore WebTide saves you time and makes you more productive. WebTide not only saves your time while editing, but also helps you to understand HTML language in a friendly way. With its UI, you can easily select where to find: Text, Images, Inserting objects(tags), Selecting style, etc. WebTide integrates a powerful search and replace feature to help you change specific tags in your HTML pages. But the real power of WebTide is the code navigation mode that helps you easily navigate through the code and find what you need. As WebTide is an integrated application, it will be easy to use with other software like CMS, FTP, FTP programs, Image editors, Digital cameras, etc. WebTide for Windows WebSMS Free Edition Description: The WebSMS Free Edition combines some of the best SMS gateway and voice gateway services. It offers 2 gateways: 1) GSM Gateway and 2) Voice Gateway. The GSM Gateway converts your mobile number (2G, 3G, 4G, CDMA, or GSM) and the Text Message ID to a URL of the destination SMS service. After the destination SMS Gateway accepts the SMS message, it transforms the text message to fax, and converts the fax to e-mail. The Voice Gateway offers voice calls for local number, and voice calls for international number. It converts the voice calls to text message for the destination SMS gateway, and then forwards the text message to the destination SMS Gateway. WebTide for Windows Web Site Manager Free Edition Description: WebSiteManager Free Edition is a Web Site Hosting Control Software. It offers a web-based management interface that helps you to easy manage, control and monitor your website. Simply by uploading, and downloading your web site files, you can manage your website. In addition, you can customize your site in one easy-to-use interface by using its many powerful features. WebSiteManager FREE Edition includes many useful tools for the Web site owner. 1. Page Statistics (Page statistics tool can help you measure and analyze the performance of your website). 2. Email Marketing (It will help you to setup automatic mailing to website visitors via your email accounts). 3. Task Scheduler (It will ease your work by managing the network connection, opening
