IHunter Crack Download [Updated] 2022

===== *Great tool to keep an eye on your messages, it also manages your to do lists and notes, syncs with web-based calendar. *Integrates your email, RSS and BBS. You can read online messages, BBS, RSS, emails, even browse others' BBS. *Plugin support: BBS, RSS, email, web (with WebSaver). *Simple to use, clean interface *Can be used as a desktop client, a web-based client and as a plugins for other apps *Integrate with Web-based Calendar *Supports MacOS 10.4 and later, Windows 2000/XP/2003/Vista/2008, Linux RedHat, Solaris *Try free 30-day trial version RSS Reader is an advanced RSS reader that allows users to manage all RSS feeds, and provides a unique user interface and a function of calendar/scheduling management. It allows users to set up the schedule to post to your favorite RSS aggregator, or start an immediate RSS batch posting. The tool allows all RSS feeds to be imported from a list file. SlimNote is an easy-to-use yet feature-rich GTD and PIM (personal information management) application. Its main purpose is to help you keep up with your life and stay organized. For users of the ACT and GTD methods, SlimNote is a great choice, especially for those users who are frustrated by software that is too simple. For GTD users, it is a great tool to keep track of daily activities. For PIM users, it is one of the best options for a to-do list and notes. SlimNote is unique in that it combines the features of GTD, PIM, and Calendaring and Scheduling into a single application. UZMA is an Open-Source, cross-platform (MacOS X, Win32, Linux) Internet messaging client (IM Client). It's based on libpurple, providing full Jabber functionality, as well as other useful features. UZMA is designed to use with online services and to be used locally. UZMA can connect to several popular IM services including Google Talk, MSN, AIM, ICQ, Yahoo!, Gtalk, and a number of others. UZMA includes support for more than one type of connection, including both simple encrypted connections as well as advanced secure connections using either SSL/TLS or X
