

Neevia docCreator Product Key 1.1.1 Introduction Neevia docCreator is a COM (ActiveX) object that can be used to generate PDF, TIFF, JPEG, BMP, PCX and PNG files from Visual Basic, Borland Delphi, Microsoft FoxPro or any Windows NT,2000,XP,2003 application that supports COM (ActiveX) objects. Main Features

1. Distill PostScript/EPS files; "Neevia docCreator" is designed to be used in a multi-threaded environment. It distills all pages of a postScript file to a single PostScript file. Distilled PostScript/EPS files have no dependence on any hardware or software other than Windows. "Neevia docCreator" supports PostScript, EPS, PDF and PNG-5 output.
2. Produce high-quality, searchable PDF documents; "Neevia docCreator" produces high-quality, searchable PDF documents. Images that are compressed to produce the PDF document are not JPEG compressed, the viewer will not display the images the same as they were on screen.
3. Font embedding, resolution, compression and multi-language support; "Neevia docCreator" supports over 100 fonts. It provides compression and resolution settings for each font. The font encoding of an embedded PDF document is auto determined from the distribution of characters of the original PostScript source file.
4. No Adobe software required; "Neevia docCreator" does not require Adobe Acrobat and can be used as a stand alone Adobe Acrobat product.
5. PDF merge and split functionality; "Neevia docCreator" can merge two or more PDF files into a single PDF file or split PDF files into two or more PDF files.
6. Convert over 60 image formats to PDF, PostScript, JPEG, TIFF, PNG, BMP, PCX, PSD, PCL-XL; "Neevia docCreator" can convert over 60 image formats to PDF, PostScript, JPEG, TIFF, PNG, BMP, PCX, PSD, PCL-XL and PDF Stamp.
7. Capture and convert the print stream to PDF, PS, EPS, JPEG, TIFF, PNG, BMP, PCX, PSD, PCL-XL; Neevia docCreator can capture and convert the print stream to PDF

With Neevia docCreator you can take any document or image in Windows and easily create a high-quality PDF document. Combine all this with the converter's powerful search and conversion features and Neevia docCreator becomes an extremely useful tool. Neevia docCreator is the most efficient and easiest way to convert your Windows document or image to a PDF file that you can modify, search, share and email. DocCreator is perfect for managing multiple documents including the use of templates and metadata, and has the ability to search and search for text. You can convert from a variety of image formats and even combine multiple PDFs into a single PDF file. User-friendly features such as the ability to save, email and print PDFs from within DocCreator allows a quick and simple to use document solution to anyone with less than four hours of training. DOCS2PDF is a compact and easy-to-use open source document-to-PDF converter. DOCS2PDF supports most popular formats such as DOC, DOCX, RTF, MSWORD, HTML, XML, XLS, PPT, PPTX, PPS, SPS, JPEG, PNG, GIF, TIFF, BMP and many others. DOCS2PDF requires a single command line. DOCS2PDF is a command-line tool to convert documents into PDFs, from any Windows application. It converts plain text to PDF. DOCS2PDF is a free tool, available for Linux, Mac and Windows. Doc2ps is a powerful command-line tool to convert document formats to PostScript (PS). It can extract page images and convert documents to PDF format. Doc2ps is a free software. You can download this tool by itself or along with other tools for Delphi. License: Share File Sharing Shareware File sharing allows people to download a free copy of your software and use it, but doesn't transfer any further rights to the software. With a Shareware license, the software is yours to use as it suits your needs. You can use it as much as you like, and if you ever want to move to other software, we'll ask for a refund. GPL General Public License is one of the most popular open source licenses. It allows users to copy, modify, and even distribute the software provided that you hold the original source code as a "Copyright", and include the source code
