Adobe Photoshop (CS) is the first software program for which we have a strong software reputation. In response to this, when new software programs attempt to be perceived as interchangeable with Photoshop, users tend to react negatively, claiming that these programs are poor imitations of Photoshop. To help ease the transition to Photoshop CS users, we have compiled a list of Photoshop's similar and similar programs. The alternatives to Photoshop CS are summarized in two groups: Similar graphic design programs, and similar photo editing programs. The photographic editors on this list are the best Photoshop replacements. The following list of programs has been compiled by taking in accounts of Photoshop's similarities and differences to other similar programs. You can compare the alternatives to Photoshop on factors including image resolution, graphic design capabilities, and data format options. Many of these programs can perform photo editing tasks similar to those of Photoshop, but their ability to perform tasks for a graphic design business will vary. There are numerous excellent and free websites that cover the possibilities of image editing software, and some of these sites cover similar software alternatives to Photoshop. Examples of sites with lists of Photoshop alternatives include: 1. Graphics Editing Software: The list of graphic design software is extensive, and covers so many areas that trying to list all of them would be a challenge. However, Photoshop is a tool that is so widely used that it has inspired a number of similar applications. Examples of Photoshop alternatives are listed by site, but we're only mentioning those sites that cover graphic design software. The list includes graphic design suites and editing software that have similar tools and features. 2. Photo Editing Software: Another site dedicated to image editing software covers many different applications, including those which are Photoshop alternatives. All of the products listed here have similar features to Photoshop, and in many cases these features are better than those of Photoshop. However, not all photo editing software programs have similar features and they may not perform tasks exactly like Photoshop. Depending on what you need, the most suitable program may be the one that you have the most experience with. Q: How to call "Use" clause from a Stored Procedure I've been doing a simple SQL call, but when I'm on the "Use" clause, I get a "Syntax Error" How can I make a SQL call from this clause? Thank you for your help.

```
SELECT kp.recibo_x, kp.recibo_x as Contrato, kp.format_b, kp.ref_sv, kp.contrato_p,
kp.contrato_clase, kp.obs_p, kp.obs_cl, CONCAT(kp.cpe_n,'-', kp.cpe_c) AS IdCon, kp.cpe_v,
CONCAT(kp.observacion_x,'-', kp.observacion_v) as Obs FROM liste_asignacion_p_v INNER JOIN
k_proyecto kp ON liste_asignacion_p_v.id_proyecto_p = kp.id_proyecto_p WHERE
liste_asignacion_p_v.id_proyecto_v = 1 AND liste_asignacion_p_v.liste_asignacion_v = '1' AND
kp.status = '1' AND kp.proyecto_p = 1
```

A: to use the Use.. clause from a stored procedure, you have to pass it some parameter, like this: USE [DB] GO SET ANSI_NULL
