rogramacioncernestopenalozaromero .Q:
Changing the name of the App Bundle in
Xcode's "Product --">"Archive" dialog If I install
a new version of my App via Xcode, there's a
dialog which allows me to download the archive
into my computer. The archive has a.ipa
extension, and has the name of the App Bundle
in its file name. If I now want to upload the
archive to iTunes Connect, I need to change the
name of the archive file name. How can I do this
in Xcode? A: If you just want to change the
name of an Archive in Xcode without changing
the name of the.ipa extension, this seems to work
for me: Select the.ipa you want to edit and open
it in Xcode. Right-click in the top pane and select
Show Package Contents. In the new window,
open the Info.plist and change the

"CFBundleDisplayName" key. [Porokeratotic eccrine ostial and dermal duct nevus]. A porokeratotic eccrine ostial and dermal duct nevus is a benign inherited dermal lesion with a prominent tendency f30f4ceada
