Soft-eReader Crack

Soft-eReader Crack Free License Key For Windows (2022)

* Very easy to use. * Automatic and private viewing. * Auto-scrolling. * Mark your book as complete. * Set the font and size of your book. * Search for any word or phrase in your book. * Print your book. * Switch books using the book catalog. * Bookmarks for the most favorite books. * Full version without any limitation. * Language and region support. Soft-eReader 2022 Crack Installer high-speed download Soft-eReader (SFR) is a soft eReader for windows developed by Mobile Soft. This program is designed to be a useful and accessible application that allows you to read classical books, specifically those from Dan Brown, Arthur Conan Doyle, and Jules Verne. However, you don't have the possibility to add new books and download them from the developer's site. More precisely, the app opens in a straightforward way, displaying all the classical books directly on your computer. You can adjust the font size, color, and reading order, and preview the books. Once you have started a book, you can mark the reading as completed, increase the font size, search for a word in the book, and print the record. There are also several options available: you can hide the interface, show the full screen, adjust the book's speed, and launch the book in a separate window. Weak points None. This application can be installed directly, and is not bound to the device. The app is limited to books, but it also provides search, mark, and print functions to help you relax. Soft-eReader is available for Android and iOS mobile devices. However, the app can't be used in conjunction with the iPad or the iPhone, as the app is designed to run on the iPhone/iPod Touch and not Android. Soft-eReader for Android: [Homepage] Download Soft-eReader for Android Soft-eReader (SFR) for Android is a free application that allows you to read classical books, specifically those from Dan Brown, Arthur Conan Doyle, and Jules Verne. This application can be installed directly, and is not bound to the device. The app is limited to books, but it also provides search, mark, and print functions to help you relax. This application also provides a search function to get the most popular books, and an option to scan QR-code from any

Soft-eReader Crack+ [32|64bit]

Soft-eReader Crack Free License Key

Use the application to read classical books! The app has the following functions: Read classic books! Read books with a unique interface! Reading classic books is now easier! Use the auto-scrolling feature and mark books as completed. Package content: Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. Android Market Comments A Google UserJul 10, 2015 Wow A Google UserAug 16, 2014 Love it. However, when I've installed it once, I'm stuck with the same cursor and with blank book pages. If I install it again, I can start reading the books again. When I close it, it opens the book that was read again. I tried reinstalling, however nothing changed. A Google UserJul 12, 2014 beautiful UI, but needs an update A Google UserJul 25, 2014 Love the UI and the filters. A Google UserJul 21, 2014 great app, except that I'm stuck with the same problem. If I install it again, I have to restart for it to work again. A Google UserJun 24, 2014 Great! A Google UserMar 23, 2014 Love it! A Google UserJun 22, 2014 Great app! A Google UserJun 21, 2014 This is a great app. Hope they fix the scroll issue. Otherwise, it's a great app. A Google UserJun 17, 2014 Great app. A Google UserJun 12, 2014 If I install the app again. The books start with the previous page. I have to restart it for the new books to start. A Google UserJun 09, 2014 Great app! A Google UserJun 08, 2014 Very good. A Google UserJun 04, 2014 This is a great app, I love the layout of it. A Google UserJun 02, 2014 Good app, really great for my work A Google UserJun 01, 2014 It's good, except that I can't scroll down to read the book. Sometimes it works and sometimes it

What's New in the?
