Simulate and Manage are already out, so I expect Freedom to be too. Here is the download link for Autodesk Navisworks Freedom 2014 32-64 bit. I know he has a Freedom version, but I can't find it. Thank you in advance I just tried to install Freedom from <http://www.freedomfree.com/> and got this error message: Error while downloading/installing product/app: "Failed to install product: Unable to download/successfully install setup file from website (/freedom, /freedom-free)". I tried again and I got this error. I just tried installing via command line and I also got this error.
