Website: Maxotek Webshots Grabber MS Office 2011 AutoCorrect Driver Free Download (PC) AutoCorrect is a tool that will automatically correct typographical mistakes in any Microsoft Office document. In previous versions of Office, AutoCorrect was a built-in feature of Word, Excel, PowerPoint and Outlook. This has now been incorporated into Word, Excel, PowerPoint and Outlook. The tool is integrated into the application itself, so you will not have to install anything. Features:

- Automatically correct misspelled words or phrases in a document by replacing them with the correct spelling.
- Save spelling corrections to your local profile.
- Insert misspelled words automatically into the document.
- Scan new or existing files, convert the file type and save it to a different file format.
