Torrents Project - With Torrents Project you can download easily all torrent files from the web. Pintos - With Pintos you can host torrents. BitTorrent Sync - With BitTorrent Sync you can synchronize all your files in the cloud. Steemit - The #1 Online Social Network for Smart People. LunarMail - From the creators of Lunascape and NetNewsWire. The present invention relates to a method for computing and displaying a series of prescription readings for a plurality of patients, wherein a computer records such prescription readings and a display updates the prescription readings. Attempts have been made to provide systems which record and display prescription readings for a plurality of patients. Various types of information regarding the patient, including the patient's name, age, and prescription reading, are displayed on a screen. Unfortunately, current systems for displaying prescription readings do not enable the user to readily determine the patient's actual prescription and prescription history. This limits the therapeutic effectiveness of prescriptions which may be administered to the patient. Total synthesis of lonesumoylcardinol B and determination of absolute configuration of this compound. [structure: see text] A short and efficient synthesis of (S,S)-lonesumoylcardinol B is reported. This procedure gives the desired natural product in a 10-g scale with only 8% of the material recovered as (-)-sparteine. Analysis of the enantiomeric ratio obtained with [(6S)-Cr-CDCl3]- showed (S)-configuration for the natural compound.Q: Transition ListView to a different Activity I need to launch a Activity from a ListView Activity. So, in the first activity, there is a ListView (contacts) and when you click on one of them it launches another Activity (Main). In Main I want to display data only for the selected contact (here is where I need the id from the contacts ListView). My code: String[] list\_fiche\_contacts\_projet = { // Contacts PROJET }; Intent intent\_contact\_projet = new Intent(contacts,this, Main,class); intent contact projet.putExtra("id", id contact projet); startActivity(intent contact pro 3e33713323
