Серилы Total 0 0.25 0.38 0.5 Главы Каждый глава содержит:Q: Creating an array from multiple arrays I have a string with multiple values between []. Is it possible to split this string and make an array for each of these values without knowing how many they are in advance? I know I could use regex to see if there are any [] in the string but I was wondering if there was an easier way. My string would look like string test = "[A] Value 1[B] Value 2[B] Value 3"; into A,B Value 1,Value 2,Value 3 A: You can't use Regex to do it, you need a parser like described in this 3e33713323
