. I wont be giving up that easily. Have your best reporter contact her about what UBLEDA did then next morning. A reporter named Nichole with UBLEDA contacted me. She then started giving me expatations about how sorry she was then re-assured me that she would just have to handle things. . Then on Monday she text me to tell me that UBLEDA will talk to UG2 and everything will work out. That was about a week ago and she has done nothing about it. . She has now sent another message to me saying that they will talk to UG2. Well this is going to be fun. I hope to be moving back to the US soon so I will have to wait for things to work out. . P.S. UBLEDA, if you dont want me to break her face, stop texting me with nonsense messages and sending other people to speak for you. These messages keep piling up and my feelings are pretty hurt. Stop being so shady. *with clear spelt spellings etc* Hi, 1. We want to have a discussion with you first. Would you be willing to meet us in person? 2. When you receive this message we will give you our contact details. Please call or email us directly and we will try to be with you in as little as possible. . The contract for our streaming sites are due the 26th of August and please take our message seriously. Good day, I will give you a sum of 20\$ if you can give me something good (a game like GTA IV) I will think about your offer and contact you thanks, MariosQ: Cleaning. Audio file won't play In an audio player, I played a song. Now I want to delete it. It says Cleaning and so I click that option. Now the player doesn't play any audio. I can play around with the settings but I can't make it work. A: You can reset your settings by tapping the left floating button (gear icon) in the upper left and tap "Reset". This will recreate your device's default settings. You may need to restart your device for the changes to take effect. Hello all. I just wanted to start up this thread to see if anybody here uses "cotton balls" 648931e174
