Powered by FIFA 22's "HyperMotion Technology," FIFA 22 allows you to make precise, controlled passes, strikes and tackles, through improved in-game ball control. A pass "ripple effect" will bend the ball into the correct angle, even when you're not looking at it, and allows you to control where the ball goes." Also featured is "FIFA 23"'s "Tackle Impact," a variable force feedback system which enhances a player's ability to strike a ball or get on the ball again when fighting for possession. FIFA 22 is an all-new game with all-new gameplay systems. FIFA 21 gave players a new power pass, enhanced ball physics, six new national teams, player 3D facial likeness and more. New player animations, ball physics and on-ball actions give you the freedom to think and move like a football player. All 23 competitions from the previous year of competition, including the UEFA Champions League, UEFA Europa League, UEFA Super Cup, UEFA Nations League, UEFA Super Cup, UEFA Youth League and UEFA Women's Champions League, are available. The functionality of the new FIFA Transfer Machine is now even more powerful than ever, and provides a variety of new transfer tactics and options. New features include:

- **FIFA Transfer Machine:** Players you buy now can be deselected and you can create your own transfer project. Players you want to transfer can be selected and you can set the transfer fee and whether or not the player will feature in the squad.
- **Worldwide transfers:** Contracts between clubs from all major football leagues are now included.
- **Ability to recruit from any youth academy:** Players from any youth academy can be recruited as a free player.
- **Improved screenshot and video recording system:** Screenshots and videos are now easier to capture.
- **Player comparison of attributes:** The ability to instantly compare a player's attributes to any other player on-screen.
- **View player data:** Player data graphs can now be viewed to analyse a player's performances over the past season.
- **Goalkeeper Coach:** A new feature that will provide goalkeepers with feedback on their shot-stopping, movement and saves.
- **Real-time status and points:** Every
