Fifa 22 Features Key:

- 4K Ultra HD and HDR support
- Completely rebuilt career mode with a more immersive experience. Now you're playing with real players, going through the motions and challenges of earning and then building your reputation.
- Create a more authentic football experience with more controls and actions, more player movements and touches, more decision making
- Powerful new features for gameplay, like Player Agility
- And an updated Frostbite engine that brings looks, sounds and controls to life, adding new movement to every field, pitch and atmosphere.

Features:

- FIFA 22 has a new and deeper “off the ball” AI for both players and goalkeepers. Your defenders will now position themselves better and make more controlled movement to

intercept passes and defend before you can decide their location. The players' off-the-ball behaviours have been taken to the next level by making them more aware of what's happening around them, so they can use it to make smarter decisions on the pitch. Should you bring the ball up the pitch? Time it right and risk detection? Use your off-the-ball effects to pick the perfect moment, or make them think about their positioning.

- FIFA has completely overhauled its tactics system, with new ways to dominate like new areas of the pitch, new direct bursts, new cutbacks and a fully balanced three-man box. There's even the option to play Major League Soccer (MLS) style where the key tactical areas are progressively more challenging.
- The return of Pro License
- New player tutorials for a more immersive FIFA experience, and a two-hour tutorial that takes the player from first steps to goal
- A reworked player fitness coach that allows you to create a tailored training routine for each player
- Possible mid-match player substitution
- PUMA
- New kit catalogue
- 9 new kits features
- Dynamic Player GK support
