One of the most powerful speakers at TED was YouTube CEO Susan Wojcicki, who showed off a project she'd worked on for years. The goal? Create a user-friendly web interface for music. It's called SoundCloud. SoundCloud is easy to use, with a wide variety of high-quality recordings. It also comes with a simple interface that makes it simple to upload and share tracks. SoundCloud is still in beta, but it has already been downloaded more than 20 million times, and is currently experiencing a surge in popularity. The tech press is already excited about SoundCloud, with Wired magazine running a special on the site, and Wired Business' own Kevin Poulsen tweeting that "SoundCloud just jumped 12x in users in the past 24 hours." Want to take a look? You can join SoundCloud at this link. More from TED: story is continued, as the story of the seven who are left—Jairus, who is not mentioned in the Gospels, and the other nine disciples, whose names are given in Matthew 26: (1) the disciples of John; (2) the disciples of Thomas; (3) the disciples of Matthew; (4) the disciples of James; (5) the disciples of Philip; (6) the disciples of Bartholomew; (7) the disciples of Simon; (8) the disciples of Judas; (9) the disciples of the twelve Apostles. They constituted the Great Church. The question that we must now ask is, Why was it so? Why did this great company of apostles become a great company? Why did all the twelve Apostles gather together as a company of twelve men? Why was not one of them permitted to keep company with the twelve remaining Apostles? Why was
