Download free and safe installerQ: Amazon iOS SDK: AWSInvalidParameterValueException: The request must contain the parameters: ClientToken I am getting this error whenever I attempt to upload an image to S3 using Amazon iOS SDK. AWSInvalidParameterValueException: The request must contain the parameters: ClientToken I know that there are similar questions posted on this website that have been asked before, but I have not found any that address my particular problem. My goal is to upload an image from the iOS device to a S3 bucket. I do this by first creating a client using a template. The client is then used to upload an object to S3. Here is the code I am using to upload the image:

```
AWSS3TransferManager* transferManager = [[AWSS3TransferManager alloc] initWithAccessKey:self.accessKeySecret.UTF8String
```
