A measure aimed at eliminating unnecessary handgun purchases will be on Minnesota's ballot in 2016. The "Guns Everywhere" measure, along with two others to address school safety and voter identification, was certified Wednesday by the Secretary of State's Office. The deadline for the Dec. 2 election is Nov. 30. The proposal, by Maryland-based Minnesotans for Compassionate Solutions, would ban handgun purchases for people who wouldn't otherwise be allowed to buy a firearm. It calls on Minnesota law enforcement agencies to negotiate agreements to allow people with violent felony convictions or extensive misdemeanor record convictions to make purchases. The measure also would ban home and vehicle gun sales to people under 21, require background checks for sales at gun shows, establish a waiting period for anyone buying a handgun, ban new "assault weapons" and require gun locks for all weapons. The \$3 million, 10-point proposal would also add to Minnesota's criminal record database the fact that a person was convicted of a violent crime with a weapon. Results from a campaign to gather signatures to put the measure on the ballot revealed that 178,000 people supported the ban while 188,000 opposed it. Minnesota voters approved a ban on handgun ownership by constitutional amendment in 1988. The Legislature tried to reinstate that ban at the end of the last session but it failed on the last day of the legislative session. The proposal is similar to a 2013 ballot initiative in Maryland that also aimed to reinstate that state's outright ban on the purchase and ownership of handguns. Voters in Minnesota
