A: I think this is working: `gslim.vim let g:slim = { \`
`'executable':!!path('~/.vim/bundle/slim/bin/slim.native'), \ 'options':`
`{ \ 'translate_tab_to_spaces': 1 \ } \ }` When you are looking to buy shoes online, you can find plenty of shoes that come with reputable manufacturers. Whether you need sports shoes or shoes for work, there is an excellent range of shoes to choose from. Looking at customer reviews, you can then work out which is the most popular product. When you are buying for the first time, you should pay attention to the brand and the size of the shoes. You should choose a brand that is reputable, but you should also pay attention to the size that you are going to need. If you are a large size person, then you will need a larger sized shoe than someone that is a smaller size. If you are in doubt about the size, you should contact the manufacturer and speak to them about the sizes available and how they fit. Here is how to buy shoes online: Benefits to Buying Online Shopping online is a great way to save money. When you look at the prices, you can see exactly how much you will be able to afford. You will not have to go anywhere, because all you need to do is send a request. All you need to do is send a request and then wait for a few days to receive your shoes. If you are choosing a specific sports brand, you will then need to make sure that the shoes you choose are the right size. If you are looking for a brand that has a huge range, you should also think about your budget. Before you buy shoes online, you will need to see what else is available to you. It is always best to choose shoes that are suitable for wearing. If you need to wear white shoes, you will be going to want to look at a pair of slim fitting shoes. If you are in need of a shoe that is a bit more stylish, you should take a look at ankle boots. You will also want to look at your current shoes to see if they will be suitable to wear in the new shoes. If you are buying a pair of sports shoes for work, you will need to make sure that they are
