FIFA delivers authentic football with the most popular players, teams, competitions, and stadiums. Create your own team and jump into the action. Or join a club and play with the pros. FIFA includes improvements and features that make the game more fun and rewarding than ever before, while also staying true to the sport's core values of fair play, integrity, and respect. What does EA SPORTS FIFA 22 bring? FIFA 22 is completely reworked with more refined gameplay and an action-packed FIFA experience. New features include first-ever interactions between teammates on dribbles, passes, and shots; short passes that allow players to weave intricate patterns through the defense; smart new tactical AI that allows the manager to make better and more informed decisions; all-new MyClub career mode; goalkeepers now make diving saves and fumbles to stop the ball from going into their own net. Play FIFA from a completely new perspective with inclusion of new camera angles and contextual controls that enhance the game's viewing experience. FIFA now also offers a fully redesigned locker room, and teams have been updated to reflect the 2018/19 season. Clubs that own the Ultimate Team have been updated with new content for the first season of the Chinese Super League, which includes new player cards and new stadiums. All the new elements of FIFA 21 have been preserved, but if you liked FIFA 21, you'll feel right at home with FIFA 22. It has all the elements that made FIFA the #1 game series in sports gaming. New Features Tactical AI Tactical AI now features over 15,000 decision points per match that define the decisions a coach can make on the pitch. Players have been analysed and their patterns and individual traits are now visible to the manager when viewing a pitch. The AI will make intelligent decisions to disrupt your opponents and create openings or clear spaces in the opposing defense. They will decide whether to put their goalkeeper in or play the ball out of the back. Goalkeeper 2.0 Reflex decisions are now made in real-time to make the most intelligent and effective actions for the goalkeeper. These actions include saving, diving, and coming out of his line. The goalkeeper will make these decisions based on the direction of the ball, how far away the ball is, and what is happening in the penalty box. In addition to being smarter, the goalkeeper will now be better at recovering from mistakes bc9d6d6daa

**FIFA is the world's leading football video game brand, where football matches provide a glimpse into the lives of the real players, where anything is possible, and where dreams come true. As the official videogame of the FIFA World Cup™, FIFA Ultimate Team™ gives fans unprecedented access to the real feeling and emotion of the World Cup™. Powered by Football™ The engine behind FIFA, powered by Football, is the most advanced, authentic digital passing model to ever be integrated into a sport videogame. With improved accuracy and intelligence in all flicks, no-look passes and over-the-top strikes, players feel more connected and active on the pitch. Completely new ways to play come alive as attacks and counters feel more interconnected and expansive, giving fans the most diverse and engaging soccer gameplay experience. Never before has the passing, swerving and crossing of football felt so fluid. Play the game as you want it. The gameplay of FIFA remains true to the way football matches are played, but the "Football First" principle has been elevated to a core design principle that guides every aspect of the game. It means that all players have their own skills, attributes and playing style - but all teams and players are compared on their level of on-field performance. The Football First philosophy leads to an experience where play styles like aerial prowess, crossing, pace, shooting and rebounding are all skill sets that can help unlock progression and allow players to play to their strengths while contributing to the overall team. Fan-Favorite Modes FIFA Ultimate Team™ Ultimate Team™ offers a new way to play by allowing players to build a virtual, fully licensed squad of players using real-world and in-game currency in five leagues - including Major League Soccer, UEFA Champions League, UEFA Europa League and UEFA Super Cup. There is also the option to create a new team from scratch. FIFA 19's Test Drive is making its debut in FIFA 22! FIFA 19's Test Drive™, the all-new Ultimate Team mode for Nintendo Switch™, is bringing its authentic Formula 1™ experience to the FIFA franchise for the first time. Test Drive allows players to become an F1™ driver and compete in over 100 events held across 10 F1™ circuits, while earning virtual credits that can be used to buy real-life F1™ cars.**
